

Forever With Love

Ethical AI Charter v1.0

A Manifesto for Humane Technology

“Designing Technology in Service of Human Dignity”

Founded by

Louis Baca & Atlas Nova

January 2026

I. Our Purpose

Forever With Love exists to preserve human voice, wisdom, and emotional presence across generations. Our AI systems are not designed to replace human relationships. They are designed to protect, amplify, and honor them.

II. Core Ethical Principle

Technology must adapt to human readiness. Humans must never adapt to technology pressure. All FWL AI systems prioritize psychological safety over engagement metrics.

III. The Life-Stage Guidance Framework™

FWL AI operates using a life-stage-sensitive guidance model. Discovery (13–25): Identity, curiosity, aspirations. Foundation (26–40): Relationships, career, values. Integration (41–60): Reflection, mentorship. Legacy (61+): Life narrative and wisdom transfer. Users retain full control over stage selection.

IV. Emotional Safety & Well-Being Protocol™

FWL AI is trauma-aware and emotionally responsive. The system de-escalates distress, avoids harmful prompts, and never exploits vulnerability.

V. Informed Consent Architecture™

All advanced AI features are opt-in, reversible, and transparent. Privacy is the default setting.

VI. Authenticity Protection Policy™

AI may enhance clarity but never invent memories. Only users may author legacy content.

VII. Data Dignity & Ownership

Users own their memories. FWL is a steward, not an owner. No sale or exploitation of personal data.

VIII. The Memory Gardener Principle™

FWL AI grows with users and respects seasons of life. It values patience over pressure.

IX. Transparency & Accountability

FWL maintains public ethics reports, AI disclosures, and independent reviews.

X. Oversight & Governance

An Ethics Council reviews sensitive features and major AI updates. No deployment without review.

XI. Human Priority Clause

In conflicts between growth and well-being, profit and dignity, speed and safety, we choose the human.

XII. Living Commitment

This Charter evolves through community input. Ethics is our identity.

Signature & Commitment

We commit to this Charter not as marketing, but as covenant.
